Results-driven Product & Change Manager with 6+ years of experience driving cross-functional collaboration, scaling and improving workflows, and delivering measurable operational and product excellence. Proven track record leading complex projects, and process enhancements across 30+ teams and 10+ departments. Data-driven strategist skilled at aligning leadership stakeholders, creating artifacts that unify the organization around our level funded product, and fostering a continuous improvement culture.

EXPERIENCE

Senior Business Change Manager, Product Strategy, Elevance Health, Denver, CO

Nov 2025-present

- Lead cross-functional product operations across 30+ teams, managing matrix relationships with Product, Legal, Compliance, Finance, Sales, Engineering, Actuarial, and Underwriting to drive coordinated execution and GTM alignment.
- Achieved 73% YoY product membership growth by rebuilding the go-to-market strategy: redesigning pricing methodologies, building tools across departments, and coordinating execution across 14+ markets.
- Building critical product artifacts and enablement roadmaps that unify the organization - equipping sales, marketing and many more teams to confidently articulate the product value to the market.

Product Manager, Elevance Health, Denver, CO

Sept 2022-Nov 2025

- Translated complex analytical insights into actionable strategies and carried out product and operational process improvements.
- Spearheaded a transformative post-sale process streamlining and automation initiative, **reducing the time spent per sold case by ~1 hour for 80+ employees**, increasing operational efficiency, and creating a better user experience.
- Partnered with legal, compliance, sales, and contracting teams to optimize contracting workflows and documentation, leading to faster contract creation and a more seamless completion process for clients.
- Achieved massive growth in membership and profitability by **enhancing pricing methodologies, training dozens of sales teams, ramping up consultative strategies, and identifying and implementing solutions to billing, contracting, and post-sale issues**.
- Solo-designed and deployed a custom AI chatbot grounded in internal product and pricing documentation, empowering 500+ employees to independently navigate complex partner conversations and reducing reliance on manual SME support, while also supporting a mailbox for inquiries and acting as a subject matter expert to support hundreds of employees.
- Cultivated competitive market positioning and client-facing strategy by communicating user needs to engineers and testing product enhancements; bridged technical and business stakeholder gaps.
- Conducted competitive threat and customer attrition analyses to identify revenue risks and opportunities, driving improvements in product strategy, positioning, and negotiation approaches.
- Independently identified a systemic underpricing flaw in a third-party predictive risk model — undetected by internal or external teams — investigating 20+ affected cases, quantifying financial exposure, and escalating findings directly to the vendor, who confirmed the issue and issued a patch.
- Strategized with external partners to strengthen engagement, satisfaction, and data-driven storytelling around value and client targeting.

Lead Risk and Underwriting Analyst, Elevance Health, Denver, CO

Nov 2019-Sept 2022

- Managed a \$15M+ portfolio in a competitive market that doubled in scale through data-informed strategy and scenario planning; **exceeded profitability targets through continuous competitive positioning analysis and market-responsive strategy adjustments**.
- Built a broker tracking and evaluation framework that informed renewal strategies, negotiations, and partner relationship management, enhancing client retention and experience.
- Launched innovative, new offerings based on market analysis, including several pilot programs designed to optimize risk and revenue.

Risk & Underwriting Analyst, Cigna Healthcare, Denver, CO

Jan 2017-Nov 2019

- Applied advanced analytics to optimize profitability and retention for a multi-million-dollar book; balanced risk and growth through data-informed pricing and segmentation. Collaborated & negotiated with business partners to achieve goals while mitigating financial risk.
