Results-driven Product & Change Manager with 6+ years of experience driving cross-functional collaboration, scaling and improving workflows, and delivering operational and product excellence. Proven track record leading complex projects, and process enhancements across 30+ teams and 10+ departments. Data-driven strategist skilled at aligning leadership stakeholders, creating artifacts that unify the organization around our level funded product, and fostering a continuous improvement culture.

Experience

Senior Business Change Manager, Product Strategy

Nov 2025 – Present

Elevance Health, Denver, CO

- Develop cross-functional product-related operations across **30+ teams**, fostering partnerships with Product, Legal, Underwriting, Sales, Engineering, Actuarial, and more to **drive coordinated execution, GTM alignment and process improvements**.
- As a 4-person team, achieved **high double-digit product membership growth** by rebuilding the go-to-market strategy, redesigning pricing methodologies, building tools across departments, and improving outcomes of high-profile initiatives across **14+ markets**.
- Build critical product artifacts and training materials that unify the organization – equipping sales, underwriting, marketing and many more teams to confidently articulate the product value to the market.
- Lead competitive analyses of competitor contracts, pricing structures, and market materials to identify gaps versus market leaders; **present findings to leadership** and use them to set a strategic roadmap and prioritize product and process enhancements.
- Conducted thorough client attrition analyses for multiple years to identify trends, risks, and opportunities; driving improvements in product strategy, positioning, and negotiation approaches.

Change Manager (functioning as Product Manager)

Sept 2022 – Nov 2025

Elevance Health, Denver, CO

- Spearheaded a transformative post-sale process streamlining and automation initiative, **reducing the time spent per sold case by ~1 hour for 80+ employees**, increasing operational efficiency, and creating a better user experience for internal and external partners.
- Acted as a funding solutions SME for **400+ internal partners** by managing a centralized mailbox – equipping dozens of teams for client conversations while turning recurring questions into targeted training topics, enablement resources, or product refinements.
- Achieved impressive growth in membership and profitability by **enhancing pricing methodologies, supporting dozens of sales teams, ramping up consultative strategies, and identifying and implementing solutions to implementation and post-sale issues**.
- Identified and communicated user needs to engineers, tested quoting software updates for multiple tool revamps, and made recommendations to cultivate top-tier quoting systems – bridging gaps between technical and business stakeholders.
- Achieved standardization across 28 markets/segments on programs like whole health savings discounts where alignment is optimal.
- Translated complex analytical insights into actionable strategies and carried out product and operational process improvements.

Lead Risk and Underwriting Analyst

Nov 2019 – Sept 2022

Elevance Health, Denver, CO

- Grew a **\$15M+ portfolio to more than double in size over 2.5 years** – **setting pricing on new and renewal business, choosing which groups to pursue or retain, and negotiating renewals with brokers, while exceeding profitability targets**.
- Built a broker tracking and evaluation framework that informed renewal strategies, negotiations, and partner relationship management, enhancing client retention and experience.
- Launched innovative offerings based on market analysis, including several pilot programs designed to optimize risk and revenue.
- **Identified a systemic underpricing flaw** in a vendor's predictive risk model – investigated 20+ affected cases, quantified financial exposure, and escalated findings, resulting in a confirmed vendor patch.
- Trained sales executives, support teams, and other underwriters in ABF-focused concepts – acting as a **funding solutions expert** and assisting with in-depth discussions with broker partners.

Risk & Underwriting Analyst

Jan 2017 – Nov 2019

Cigna Healthcare, Denver, CO

- Comprehension of **fully insured and self funded (ASO) medical products**, underwriting principles and guidelines, state and federal laws relating to health insurance, application of manual and experience rating models, pricing adjustments, and benefit plan changes.
- Applied advanced analytics to optimize profitability and retention for a multi-million-dollar book; balanced risk and growth through data-informed pricing analysis. Collaborated & negotiated with business partners to achieve goals while mitigating financial risk.

Skills

- **Agile Methodologies:** Scrum Master, Project Management, Requirements Gathering, Root Cause Analysis, Process Improvement
- **Productivity & Business Tools:** Microsoft Suite, Google Workspace, CRM (Salesforce), Notion, Loop, JIRA, Lucidcharts, CMS
- **Product Management:** Product Ownership, Roadmapping, Change Management, Stakeholder Alignment
- **Continuous Learning & Data Analytics:** Google Data Analytics Certified, 40+ hours in Project Management & Leadership Coursework
- **AI Tools:** Leverage Claude Cowork & Code, ChatGPT, NotebookLM, & Gemini in everyday workflows to increase efficiency.

Education

Bachelor of Science, Finance

The University of Kansas
